Pass treble in 4th place up, make fourths

- Make places where you pass the treble on the way up.
- When making 3rds or 4ths on the way down, the 2nd stroke is over the treble.
- Making 4ths and lying in 6th are linked: when you do one, the other will follow next. Likewise, making 3rds and double-dodging 5-6 are linked.
- Exceptions at Bob/Single:*
 - after double-dodging down: here, make 4ths, then double-dodge up.
 - after making 3rds or long 3rds, return to lead
- Bobs and Singles are somewhat similar to those of Grandsire.
- The dodges in 5-6 are 'handstroke dodges' like in Grandsire.
- Lying behind in 6th place always starts with the backstroke.

Plain hunt below the treble.
